Director: Erik Hatch - Running Time: 70 min -**

The very best from the skateboard video archives of filmmaker Erik Hatch. As a skateboard filmmaker, Erik Hatch has captured thousands of hours' worth of "footy". Take a trip through the archives! This film spotlights professionals, amateurs, unknowns and some of the best skateboarders of the last 35 years. "Footy" also takes a look at skaters in their downtime, on road trips & tours, and just plain destroying any terrain that gets in their way! The film touches on everlasting friendships, "haters", and the future of skateboarding. "Footy" goes back in time to show you the evolution of skateboard videography. From the Hi-8 days with un-sponsored friends, to the digital days, and trips around the world with the greatest pros of the time. This film sets the footage of some of the best skateboarders ever seen to a fast-paced soundtrack. It showcases Santa Barbara Locals, the kids that grew up ruling the Powell Skatezone, and the infamous Church of Skatan crew. "Footy" takes you on trips to Japan, Canada, and the East Coast with the locally born Shorty's Skateboards team and friends. It also shows you around the neighborhoods of Santa Barbara with the local rippers. People like Jacob Rodrigue, Sammy Baptista, Dylan Gardner, Mike Kresky and "The Muska", rule this film with love, style, and a never-quit-attitude... the three components of a great skateboarder. Over the years, the footage has piled up, and videos have been made. "Footy" shows you something old, and something new! Something raw, and something real. Never-before-seen shots of the past, and the rippers of the future. This is all for the love of skateboarding. Give it up for the quest for FOOTY.
